# How to Use This Checklist

Use this document before requesting a quotation, before approving a sample, and before confirming mass production. It is designed for crystal shops, gift stores, online sellers, distributors, and private label brands.

**Tip**

Save one copy for each supplier or purchase order. Add links to reference photos, approved samples, packaging artwork, and quotation versions.

# 1. Product Requirement Checklist

- Product type and shape are clearly named
- Material name and acceptable alternatives are listed
- Natural color or treatment requirements are confirmed
- Target dimensions and acceptable tolerance are specified
- Estimated quantity per item is provided
- Mixed-lot rules are confirmed
- Display stand, accessory, or gift box requirements are listed
- Target price range and sales channel are shared

**Reference line**

Example: 60 mm polished sphere, mixed natural Jasper, 58-62 mm tolerance, 48 pieces, individual protective wrap, no stand, barcode label required.

## 2. Supplier Evaluation Checklist

Check	Question to ask	Status
<input type="checkbox"/>	Does the supplier understand the exact product and material?	
<input type="checkbox"/>	Can representative photos, videos, or samples be provided?	
<input type="checkbox"/>	Are treatments and natural variations explained clearly?	
<input type="checkbox"/>	Can the supplier support repeat orders and stable specifications?	
<input type="checkbox"/>	Are mixed lots, low MOQ, or custom packaging available?	
<input type="checkbox"/>	Is export packing experience demonstrated?	
<input type="checkbox"/>	Are quotation, payment, and production terms clear?	
<input type="checkbox"/>	Is communication timely and documented?	

### 3. Sample and Quality Checklist

---

- Sample material and product shape match the quotation
- Size, weight, and tolerance are checked
- Polishing is smooth and acceptable
- Carving details are recognizable and balanced
- Tower tips and bases are acceptable
- Sphere diameter and roundness are acceptable
- Natural inclusions are within the approved range
- Packaging protects the weakest product features
- Sample approval is recorded with photos or written comments

## 4. Packaging, Shipping, and Order Handoff

Area	Final confirmation
Retail packaging	Box / bag / label / barcode / insert card artwork approved
Inner protection	Individual wrap, foam, divider, or inner box confirmed
Export carton	Carton quantity, weight, dimensions, and marks confirmed
Shipping terms	Destination, delivery method, and commercial terms confirmed
Production documents	Final quotation, product list, artwork, and sample approval saved
Inspection	Pre-shipment photo or inspection requirement confirmed
Reorder data	SKU, material, size, packing, and approved photos stored for repeat orders

### Send Us Your Completed Sourcing Brief

Share your product list or completed checklist. We will organize the requirements and prepare a tailored wholesale quotation.
