Wholesale Collections at a Glance

Our core assortment is built around three active product families: Crystal Carvings, Crystal Towers & Points, and Crystal Spheres. Each collection can be sourced in multiple materials, sizes, and packaging formats for B2B buyers.

Small crystal carvings for gift, collectible, and themed retail assortments.

Polished gemstone spheres for display, gifting, decor, and specialty retail.

Best for

Crystal shops, gift shops, metaphysical stores, online sellers, livestream retailers, wholesale distributors, and private label brands.

1. Crystal Carvings

A flexible category for themed collections, seasonal displays, impulse-buy items, and custom shape projects.

Animal and character carvings in mixed natural materials.

Mini carvings suitable for gift sets, counter displays, and mixed lots.

- **Common themes:** animals, symbolic figures, seasonal characters, mushrooms, angels, skulls, and custom shapes.
- **Typical size direction:** mini carvings from around 30 mm; medium carvings from around 50-100 mm; larger custom pieces quoted separately.
- **Retail positioning:** collectible gifts, metaphysical displays, decor accents, themed assortments, and private label collections.
- **Wholesale options:** mixed materials, repeated shapes, coordinated color sets, custom packaging, and buyer-selected assortments.

2. Crystal Towers & Points

Polished towers are easy to merchandise, visually consistent in shelf displays, and suitable for material-based collections.

Statement tower sets with polished points and natural pattern variation.

Blue-toned towers for coordinated color collections and display bundles.

Buying focus	What to confirm
Height and base width	Specify target size range and acceptable tolerance.
Material and pattern	Natural stones vary in color, inclusions, banding, and translucency.
Point and base finish	Confirm tip condition, polishing standard, and whether the base must stand flat.
Packing method	Individual protection is recommended to protect points during export.

3. Crystal Spheres

Gemstone spheres work well in premium displays, online product photography, gifting, and color-based collections.

Polished natural stone spheres in coordinated material groups.

Retail-ready sphere sets shown with display stands.

- **Measured by diameter:** common inquiries include 30 mm, 40 mm, 60 mm, 80 mm, 100 mm, and larger statement sizes.
- **Natural variation:** each sphere may differ in pattern, tone, transparency, weight, and internal texture.
- **Display options:** metal stands, wooden stands, retail gift boxes, or individually protected bulk packing.
- **Commercial tip:** mixed-material sphere lots help retailers test multiple colors and price points in one order.

Popular Material Directions

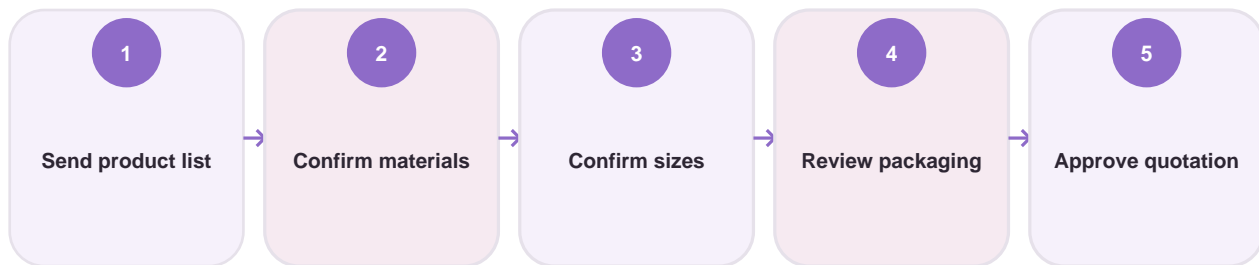

Material family	Visual direction	Common product formats
Quartz family	Clear, smoky, pink, purple, golden, included, or patterned	Spheres, towers, carvings, hearts, palm stones
Jasper and agate	Earthy, banded, spotted, scenic, or highly patterned	Carvings, spheres, towers, decor
Obsidian	Glossy black, snowflake, mahogany, or gold sheen	Carvings, towers, spheres, symbolic designs
Feldspar family	Moonstone flash, labradorite sheen, amazonite blue-green tones	Spheres, towers, decor, palm stones
Calcite and soft minerals	Cream, orange, blue, green, translucent, or waxy	Carvings and decor pieces; careful packing required
Mixed natural stone	Assorted colors and patterns selected for variety	Trial orders, mixed lots, gift programs, livestream sales

Natural material notice	Crystal products are made from natural stone. Color, pattern, inclusions, transparency, weight, and exact dimensions can vary. Representative photos and approved samples should be used to confirm expectations.

Wholesale Services

Service	What it includes
Mixed Lot Orders	Combine different products, materials, shapes, and sizes to test your market.
Low MOQ Trial Orders	Typical starting quantities may range from 20-100 pieces depending on material, product, size, and packaging.
OEM / ODM Support	Custom shapes, measured sizes, artwork-based development, and repeat order specifications.
Private Label Packaging	Logo labels, barcode labels, gift boxes, insert cards, retail bags, and carton marks.
Export Packing	Individual protection, inner boxes, divided cartons, reinforced export cartons, and pallet packing when needed.
Sourcing Support	Material matching, assortment suggestions, photo confirmation, sample review, and quotation preparation.

How to Request a Quote

- Product name, reference photo, or website link
- Preferred material or acceptable material range
- Target dimensions and acceptable tolerance
- Estimated quantity per item or total mixed-lot quantity
- Packaging, labeling, barcode, or private label requirements
- Target market and delivery destination
